WELCOME TO SIGMA SANITARYWARE!

 At Sigma Sanitary, we're dedicated to redefining the standards of cleanliness and hygiene. As a leading provider in the sanitation industry, we take pride in offering innovative solutions that ensure the well-being and safety of individuals and communities. At Sigma Sanitary, we're not just a company; we're a commitment to your well-being and the health of your surroundings. With an unwavering dedication to hygiene, we have embarked on a mission to revolutionize cleanliness standards across the board.

Our journey began with a simple realization: that cleanliness is the cornerstone of a healthy life. With this ethos driving us, we have meticulously crafted a range of products that cater to every aspect of sanitation. From cutting-edge personal hygiene solutions to robust industrial-grade equipment, our offerings reflect our relentless pursuit of innovation and quality.

For more information about our products, initiatives, or to get involved, feel free to reach out. Sigma Sanitary welcomes you to be a part of our story and the global cleanliness movement.

Our Mission

Our mission is simple yet powerful: to create environments that foster health and comfort. We believe that cleanliness is not just a luxury, but a fundamental right. Through cutting-edge products and unwavering dedication, we strive to make cleanliness accessible to all, from households to businesses, from urban centers to remote areas.

Our Vision

At Sigma Sanitary, our vision is to pioneer a global transformation in hygiene and cleanliness. We envision a world where every individual, regardless of their background or location, has access to top-tier sanitation solutions that contribute to their health, well-being, and dignity.

Global Brand OEM/ODM Strategic Partners

Non-stop craftsmanship:
demoulding, assembling pieces, seam
polishing, cleaning and sponging.

Two piece toilet Installation Steps

Flush valve of two piece toilet and its accessories

Cover seat hole on the toilet

Install the water flush valve first

Tighten the valve screw nut and cover the screw with the rubber ring

Install the water fill valve next

Place the water inlet pipe

The water inlet pipe extends from the hole at the back of the water tank

Install the inlet valve screw

The other side screws are on the toilet

Put the tank on the bowl properly

Put in the corresponding screw

Observe screw position

Install the screws and tighten them

Install the button on the tank cover

View of toilet with flush valve installed

One piece toilet installation steps

Install the water flush valve first

Disassemble the base of the outlet valve and flush bucket

Loosen the water outlet valve base screw

Tilt into the water outlet valve base

Tighten the water outlet valve base screw

The water outlet valve/flush cylinder is rotationally installed on the base

Unscrew the water inlet valve screw

Put the water inlet valve into the water inlet hole

Tighten the screw of water inlet valve

View of toilet with flush valve installed

Toilet Flushing System

Responsible Water Use

All our products ensure the economic and ecological benefits of water and energy, and our commitment to the environment ranges from the first sketch to the manufacture of the final product.

In the early planning of the product development process, the best materials are selected to carry out the efficient utilization of resources. Compared with traditional one, the design of 4.5/3L Double-shift Water Outlet can save more than 50% water for long-term use.

HEALTHY LIFE COMES FROM DERUI

Easy-cleaning Glazing

The glazing is carried out by high firing temperature so that the surface is smooth and easy to clean. The product always looks new even after long time using. There is no hard-to-reach places where bacteria can build up and odor can develop. Long-term cleanliness brings high-quality life experience.

Easy Assembly & Disassembly Cover

The cover adopts the technology of easy assembly & disassembly. It ensures the easy cleaning of the cover and nowhere for the dirt to hide.

Upgraded Cover

The material of the cover has been upgraded. The cover's compressive strength is greatly enhanced. It is tough and durable. The colour looks like ceramic and it feels smooth. It is not easy for aging and fading.

Sewer Glazing

The inner surface of sewer is glazed so that the sewer is smooth and nowhere for dirt to hide, and no blocking any more.

Mute Slow-down Seat Cover

Mute slow-down seat cover technology can reduce the noise, collision and breakage of the seat cover when it is closed.

Crystal Glaze

Crystal glaze is used with the new nano technology, and the firing temperature is strictly controlled over 1280 degree, which ensures the surface is greatly smooth, and no hidden, hard-to-reach places where bacteria can build up and odor can develop. Toilet is much easier to clean.

· 10% of normal cleaning time*

· 10% of normal detergent*

· 10% of normal water*

Antibacterial, Easy to Clean, Healthy

Scientific glaze formula ensures that the surface is hygienic and antibacterial.

Comfortable And Healthy

Because of high humidity, bathroom is the suitable space for microorganism growth. We choose the environmental protection material which can effectively remove the odour in the air and be good at disinfecting to ensure the bathroom's cleanliness and the fresh air. So we can enjoy a healthy bathroom life.
